MOTOR VALLEY EXPERIENCE

The Land of Speed on two wheels

MOTOR VALLEY

Motor Valley is the land where the most performing engines in the world are born, a place of “slow food and fast cars”, as the great Michelin-starred chef Massimo Bottura likes to say.

The newborn of Borgo Panigale will allow you to discover the most iconic places in the land of speed, crossing exciting roads and breathtaking hairpin bends.

MOTOR VALLEY ON TWO WHEELS

Emilia: the charming place where exciting roads, fast engines, great food and wines combines together magically.

The most important car manufacturers and museums of the Motor Valley are located within a few kilometers from Modena and its not-to-be-missed Piazza Grande, a UNESCO World Heritage Site, and birthplace of the most famous meals of the Emilian cuisine.
